

Pasture Pest Management Field Day

This field day will cover **Integrated Pest Management (IPM)** which is a pest management technique that combines many tools including biological, physical and chemical control of pests in hayfields and grazing pastures. The field day will provide current information from UF/IFAS Extension agents and specialists on various pests life cycles, reproduction and control methods. As a result participants will be able to prevent unacceptable levels of pest damage by the most economical means.

August 25, 2011
3:00 ~ 6:30 pm

Allison Brothers Farm
2728 SW Cypress Lake Rd
Lake City, Fl
